Creating good communities

Enjoy your home

We're really pleased to have you as a Thirteen customer, and we hope that you can enjoy your home.

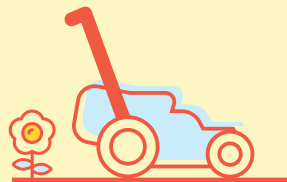

Be considerate

Have fun with friends and family but be considerate of your neighbours and the noise that you make. Please always ensure you and your visitors park considerately.

Keep a nice home

Keep your garden clean, tidy and the grass cut to avoid attracting pests, like rats, that can cause damage to your home and spread disease.

Dispose of household waste

Check your local council website for the rubbish and recycling date in your area. Ensure your rubbish and recycling is placed out on time for collection.

Meet your neighbours

Most people do not intend to upset their neighbours and are unaware that they are causing a problem. If you feel you can, introduce yourself and discuss the issue with them.
